Chief Executive.

PLANNING COMMITTEE

A Planning Committee Site Inspection meeting will be held on **WEDNESDAY, 31ST AUGUST, 2022 at 10.00 am.**

NOTE: Please assemble on site at location 1 as detailed on the attached site plan by 10.00 a.m. Please wear appropriate sturdy footwear.

Members of the Planning Committee

Councillor Ley (Chair)
Councillor Mackie (Vice-Chair)

Councillors Chesters, Crabb, Davies, Fowler, Gubb, Jenkins, Leaver, Mack, Prowse, D. Spear, L. Spear, Tucker and Yabsley

AGENDA

1. Apologies for absence
2. Declaration of Interests

(Please complete the form provided at the meeting or telephone the Corporate and Community Services Team to prepare a form for your signature before the meeting. Items must be re-declared when the item is called, and Councillors must leave the room if necessary)

3. To agree the agenda between Part 'A' and Part 'B' (Confidential Restricted Information)

PART A

4. **10.00 a.m. (approx.) 70954: Larkbear Tawstock Barnstaple Devon**
(Pages 3 - 26)

Erection of 252 dwellings together with associated works (additional information). Site location plan and report by the Senior Planning Officer (attached).

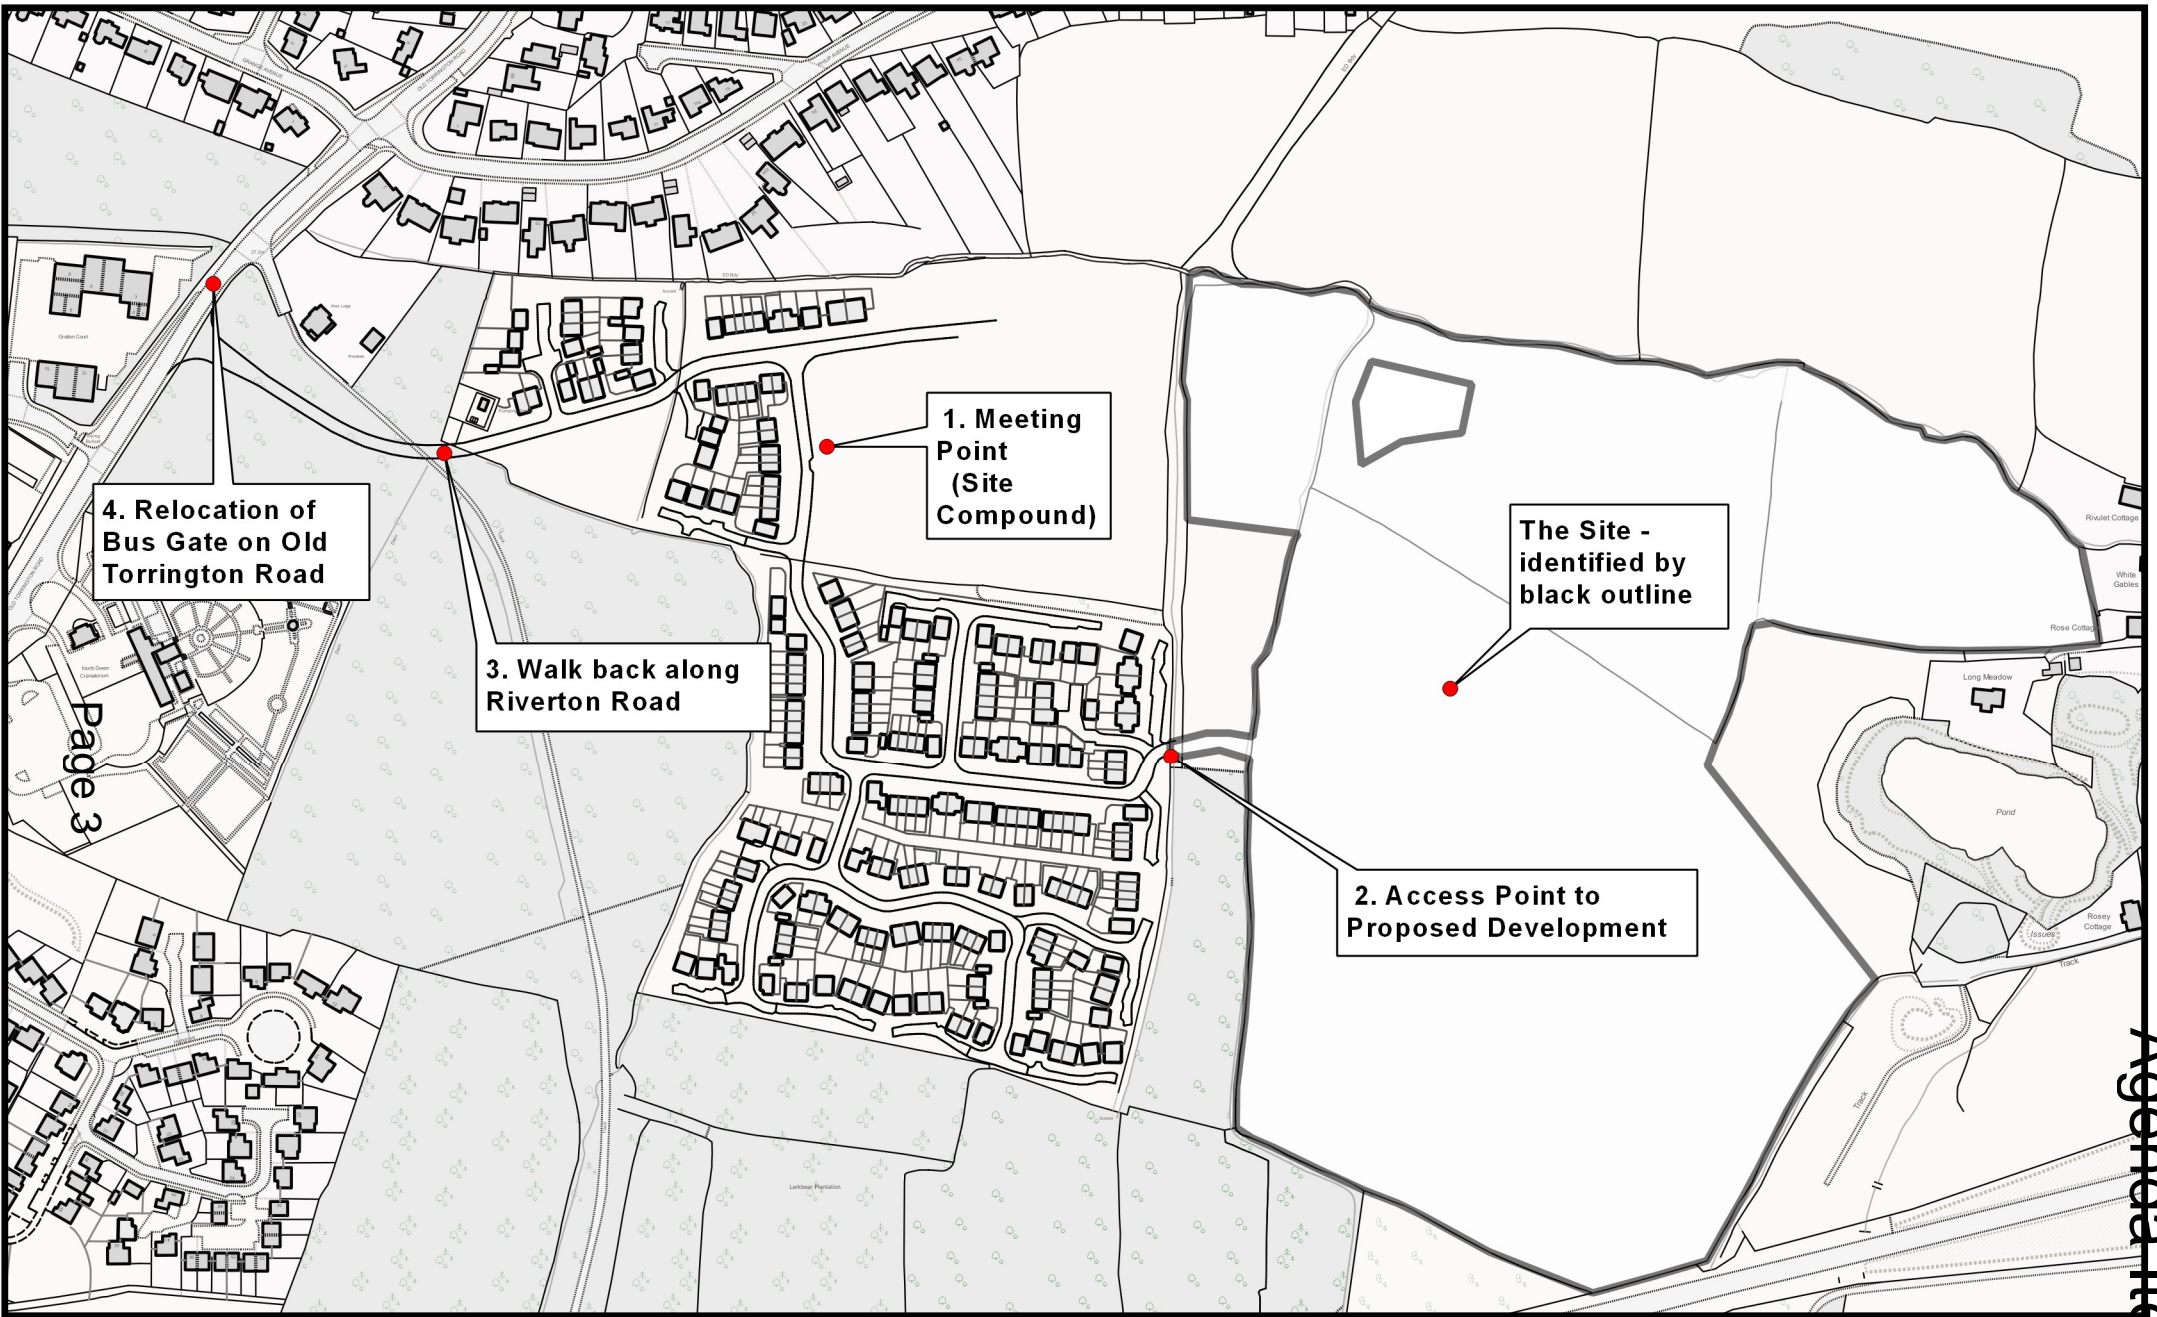

PART B (CONFIDENTIAL RESTRICTED INFORMATION)

Nil.

If you have any enquiries about this agenda, please contact Corporate and Community Services, telephone 01271 388253

Note: copies of representations received relating to planning applications are available to view on the web, linked to the associated planning application record - www.northdevon.gov.uk

PLANNING SITE INSPECTION GOOD PRACTICE	
Do try to attend site visits organised by the Council where possible	Don't hear representations from the applicant or third parties
Do ensure that you treat the site inspection only as an opportunity to seek information and to observe the site	Don't express opinions or views to anyone
Do ask questions or seek clarification of matters which are relevant to the site inspection	Don't visit a site on your own, even in response to an invitation, unless you have spoken to the Planning Department.

Application Report

Planning, Housing and Health
North Devon Council
Lynton House, Commercial Road,
Barnstaple, EX31 1DG

Application No:	70954
Application Type:	Full application
Application Expiry:	30 June 2022
Extension of Time Expiry:	30 June 2022
Publicity Expiry:	30 September 2022
Parish/Ward:	TAWSTOCK/ROUNDSWELL
Location:	Larkbear Tawstock Barnstaple Devon
Proposal:	Erection of 252 dwellings together with associated works (additional information)
Agent:	Persimmon Homes Ltd & Elan Homes Ltd
Applicant:	Persimmon Homes Ltd & Elan Homes Ltd
Planning Case Officer:	Miss S. May
Departure:	N
EIA Development:	
EIA Conclusion:	EIA REQUIRED. Please issue relevant letter to applicant / agent.
Decision Level/Reason for Report to Committee (If Applicable):	Called in by Councillor Lofthouse commenting that there is considerable local public interest in this controversial development. Councillor Lofthouse has concerns about the highway safety and the results of the traffic survey. He also states that there does not seem to be any reference to providing a road which will allow the link to the A361 junction as per Local Plan.

Site Description

The site is located around 1 mile to the south of Barnstaple Town Centre, to the west of both the River Taw and the A361, west of the small hamlet of Lake, north of the A39, east of Old Torrington Road and southeast of the existing residential development in Phillip Avenue, Andrew Road and Elizabeth Drive. The site lies immediately adjacent to the east of the planning approval 611119 for 236 dwellings.

The site is located a short distance from Petroc College, Barnstaple Train Station and the Town's retail park and is in close proximity to Roundswell Industrial Estate and Sainsbury's superstore. The site forms part of a proposed second phase of development on this allocated site, under Policy BAR02, following detailed approval for the construction of 236 dwellings in September 2019 which is currently under construction. At the time of writing this report 82 of the plots were occupied, of those 82 dwellings, 30 have been affordable housing completions (circa 36%). These are occupations for Persimmon's plots.

The application site comprises 11.96 hectares of primarily agricultural land which has a hedgerow border to the north, east and west. To the south east lies an area of established woodland and to the south lies the A39 which borders the site. An existing hedgerow that runs west to east splits the site into two parcels of land with the larger land parcel to the south. The site would link to the first phase of the development which is immediately to the west.

The site is gently sloping from the south at its highest point to the north. The gradient increase in the northern part of the site as it approached the tributary of the River Taw.

The landscape is characterised as Upper Farmed & Wooded Valley Slopes (3A).

The north western boundary lies within Flood Zone 2 with the rest of the site being in Flood Zone 1. In addition, the site lies within a Critical Drainage Area.

The site is 0.6km from the Taw Torridge Estuary SSSI.

The site lies adjacent to a regionally important geological site (Lake Hamlet road cutting).

TPO Order 322 – W1, Larkbear Plantation.

Constraint / Local Plan Policy	Distance (Metres)
<p>and sustainable drainage systems to reduce the risk of flooding around Lake and elsewhere in Barnstaple.</p> <p>(3) The transport and connectivity strategy for this strategic extension will:</p> <p>(a) provide a new junction on the A361 to deliver the primary vehicular access to the development and a new main vehicular access to Petroc and the adjoining innovation and incubation units;</p> <p>(b) improve public transport links between Roundswell, Seven Brethren and the Town Centre;</p> <p>(c) establish a permeable and connected network of footpaths and cycleways across the site that facilitate connections for pedestrians and cyclists between the proposed development, Roundswell, Seven Brethren, the town centre and the Tarka Trail, to improve opportunities for sustainable travel choices within and around Barnstaple to reduce reliance on the private motor car; and</p> <p>(d) provide a foot and cycle bridge over the A361 and railway line to deliver safer pedestrian access to Seven Brethren and towards Park School.</p>	

Figure 3 - BAR02 Policies Map

Policy BAR20: Strategic Green Infrastructure Links

The strategic green infrastructure network within and around Barnstaple will be enhanced by providing:

- (a) improved footpath and cycle links to the Tarka Trail from Pottington, Sticklepath and Bickington;
- (b) a cross-town cycle route from the Tarka Trail (at Fremington) towards Landkey through Bickington, Roundswell, Larkbear, Newport, Whiddon Valley and Westacott;
- (c) a footpath link around the eastern side of Barnstaple between the Hospital and Westacott;

- (d) improved footpath and cycle links along the eastern side of the River Taw between Rock Park and the centre of Bishops Tawton; and
- (e) a new pedestrian and cycle bridge across the River Taw between Anchorwood Bank and the town centre.

A Statement of Community Involvement has been prepared in support of the application. This comments that consultation on the emerging proposal for the Larkbear new neighbourhood began in late 2011 when both Persimmon and Elan Homes held meetings with North Devon Council Planning Officer and County Council Highways Officer to begin exploring the opportunities and constraints which would inform how the site might be developed for future residential use. A community exhibition was also held prior to the application being submitted to provide residents the opportunity to view emerging plans that would form the basis of an application. Residents were encouraged to respond to the proposal through a feedback from. The responses received focused on:

- Impact on local traffic and highways
- Impact on local ecology and wildlife
- Impact on existing social/community infrastructure
- Tenure of affordable housing

The application has been through 3 rounds of public consultation and the following issues have been raised:

Highway Issues

- Highway safety
- Development would lead to severe traffic congestion
- Provision of footbridge, schools site, new road link to A361, access to Petroc were all considered essential to make the original outline scheme acceptable. There are no assurances that any of these would be provided in the future.

- Without the new link connecting Old Torrington Road to the A361 the development will have an unacceptable effect on the surrounding highway network and access to Petroc
- No safe segregated cycleway provided through the site to link Old Torrington Road via the Phase 1 development to the west with Lake Road and beyond to the National Cycle Network to the east

Infrastructure

- Insufficient range of community benefits and no assurances that any further benefits will be provided at a future date

Scheme specifics

- Risk that applicants will not progress any further with development and none of the improvements would be brought forward
- Lack of commitment to provision of local amenities with only a reference to potential future 'phasing'
- Noise
- Impact on Heritage assets including Lake Conservation Area and Tawstoc Castle
- Dust, noise, litter and pollution during construction
- Loss of trees
- Impact on wildlife
- Flood risk

Other Matters

- Crime
- Impact upon health and well-being of residents

Considerations

Proposal Description

This application seeks full planning permission for the erection of 252 dwellings together with associated works. The development would be accessed via Old Torrington Road, through the approved Phase 1 development to the west and associated infrastructure.

Environmental Impact Assessment

The Council's screening opinion was published on 30 January 2020 and confirmed that the proposed constituted development that required a full EIA. In response to the Screening Opinion, the applicant requested a Screening Direction the Secretary of State.

A written decision was issued by the Secretary of State on 23 April 2020 (ref:PCU/EIQSCR/X1118/3249564). It is acknowledged that the development falls within the description at paragraph 10 (b) (i) Urban development projects, including the construction of shopping centres and car parks, sports stadia, leisure centres and multiplex cinemas - of Schedule 2 to the 2017 Regulations. However, taking into account the selection criteria in Schedule 3 to the 2017 Regulations the Secretary of State confirmed that the proposal is not likely to have significant effects of the environment. As a result the Secretary of State directed that the proposed development **was not 'EIA development' within the meaning of the 2017 Regulations.**

Planning Considerations Summary

1. History relating to site
2. Principle of development
3. Character and appearance
4. Heritage and archaeology
5. Highway considerations
6. Amenity impacts
7. Flood risk and drainage
8. Landscape and Ecology

9. Infrastructure requirements
10. S106 Agreement Heads of Terms
11. Planning balance and Conclusion

These matters will be presented in detail in the subsequent Committee report likely to be presented to Planning Committee on 12 October 2022.

Site Visit Itinerary

In order to look at the site the following points (numbered on the attached plan) will form the site visit:

- 1) On foot meeting point – meet at site compound where there will be space to park several cars – Members are requested to car share as there is limited parking available.
- 2) Application site. We will walk to the access point which will link from the approved planning permission to the proposed development. As you walk along to the proposed access you will be able to see houses as currently built and under construction.
- 3) Walk back along Riverton Road to Old Torrington Road to see location of proposed bus gate.

Some members may prefer to drive from the site compound back to Old Torrington Road rather than walk. As you look right from Riverton Road onto Old Torrington Road this is the location of the proposed bus gate.

In addition to the plans above please see below further plans/information for reference on site visit.

Appendix 1 – BUS GATE

Resolution for the bus gate (minutes available from [Agenda for North Devon Highways and Traffic Orders Committee on Monday, 27th June, 2022, 10.30 am - Democracy in Devon](#))

At the HATOC committee meeting on 7th July 2021 it had been resolved to implement the bus gate and waiting restriction on Old Torrington Road subject to further consideration by the committee on the proposed operating times of the new bus gate. This discussion took place at the meeting of the Committee on 21 November 2021 where it had been resolved to introduce the bus gate at all times for northbound traffic only, with an exemption for motorcycles. However, following legal advice, this modification required further public consultation. The Report detailed the results of the consultation so that the comments could be considered before a final decision was made.

The Traffic Order would revoke the Gratton Way Bus Gate and introduce a new Bus Gate on Old Torrington Road, to the north of the junction with Gratton Way.

Consultation had been carried out from 1 to 14 June 2022 and a total of 118 responses had been received and only 11 indicate support for the modification with 107 opposed.

Members' comments and discussion points with the Officer included:

- The latest consultation response; and safety issues for pedestrians and cyclists with the current level of traffic in Old Torrington Road
- The differing opinions of communities from north and south of the proposed bus gate as reflected in previous deliberations by the HATOC committee and past consultation responses
- The reasonable endeavours by the HATOC committee to comply with the LPA's permission (in relation to the residential development) in regard to the proposed bus gate in Old Torrington Road and Traffic Order for which the County Council was responsible as the Highways Authority; and
- A proposal by a Member to re-affirm the decision of the HATOC committee made at the last meeting in November 2021.

It was RESOLVED that

- (a) The responses to the consultation be noted;
- (b) That the Traffic Regulation Orders for the proposal in Old Torrington Road be made and sealed as originally advertised.
