Comments	
maybe too many seats making square unusable? Lots of references	site specific, timber good
no groundwork included - small concrete base. Not v site-specific	good material
local, good castle references, bit fragile?	like it
maybe not v robust (unless concrete) fun - not much castle	not sure about colours in the setting
good bench, robust, bit dull?	doesn't have much impact for the money

mosaic maintenance
not site speciifc - eliminate
dimensions, fixing, climbing
? Robustness
artist sounds difficult
