Assumes current 2-year pay award offer up to 2019-20 year continuing; plus cost of annual increments

2016 revaluation resulted in a cost increase; assumptions factored in as part of this revaluation have taken into account future forecasts. However, prudently built in £150k in case actual results differ from assumptions for 2019 triennial review.

Borrowing costs of £590k already in base - borrowing model forecast to 2022/23 (increase to £790k). Note: Without any further capital receipts this increases to £910k in 2024/25.

Loss of grant as was only one-year funding for 2019-20.

Budget 2018-19 has a target of £200k (currently reporting £225k being achieved). For 2019-20 have increased this to £240k; the £40k adjustment in 2020-21 reduces the budget back down to £200k.

Base Budget 2019-20 has a contribution of £62k - reserve balance @ 31 March 2019 estimated to be £71k.

Base Budget 2019-20 has a contribution of £250k which is planned for fleet replacement. Assumption this continues for period.

Base Budget 2019-20 has a contribution of £0k - reserve has sufficient balance @ 31 March 2019 estimated to be £250k.

One-off contribution to reserve in 2019-20 year reversed to mitigate potential changes to NHB scheme funding in 2020-21.

Review of CCTV service being carried out with a number of potential options. (£35k) of the lowest potential saving factored into 2019-20 budget (50%); with remainder built into 2020-21 year.

Original predicted figures from DCC of (£310k) through to 2025-26 resulting from the service changes implemented June 2017. Will not benefit from all the changes until the new organic contracts in place (October 2019). Part of the savings (£235k) included within the 2019-20 budget and in line with latest projections from DCC for element we will receive. Remainder of predicted savings (£75k) factored in from 2020-21.

Review of fees and charges (car parks, garden waste, commercial waste)

Net savings generated from 2019 Capital business cases

Reduced in line with 2019-20 year

2019-20 grants original plan was to reduce by 50%; Executive have now proposed to keep grants at current level. Proposal to fully remove 2020-21.

In line with previous year's reductions (2020/21 reduces grant paid out to zero)

### Medium Term Financial Strategy - 2019 to 2023

Funding	2019-20 £'000	2020-21 £'000	2021-22 £'000	2022-23 £'000	
<b>Government Settlement (SFA)</b>					
Revenue Support Grant	16	0	0	0	Approved 4-year settlement (to 2019-20) from DCLG - year 4
Baseline Funding Level	2,943	3,011	3,080	3,151	Fair Funding Review and (SR19) for 2020-21 onwards will change the level of funding received. Baseline Funding will be reset following a review of relative needs and resources; with current growth to date reset and incorporated within overall Baseline Funding. (Current £1.5m is made up of; £1.0m growth; £0.4m renewable energy schemes; £0.1m pooling gain). Estimated that 50% of the £1.0m growth is reduced and remaining 50% factored into Baseline Funding.
